***Boutique Hotel Yöpuu** is a charming city hotel in the heart of Jyväskylä. In this building of considerable historic interest guests will find characteristics reminiscent of the 1920s but also of the present day. The atmosphere is provided by numerous small details, such as the personal style in which the rooms are decorated, each of which has a fascinating tale to tell.*

Hotels famous restaurant **Pöllöwaari** offers clear, aesthetically beautiful, fresh and high quality food. Raw materials and flavours follow seasons variation. Finnish meat, fish and vegetables are often from near region and are the heart of our à la carte and menu.

The area of **Kapeenkoski** with beautiful ridges and rapids provides a perfect setting for recreation and activities. In addition to fly fishing it is also possible to try white-river rafting, or arrange a company wellness day. The history of Kapee area lives in the water mill, built in 1786, and other old buildings of the area.
